# MICROBIOME BREAKTHROUGH

Unique blend of immunoglobulins, probiotics, and prebiotics designed to help support a healthy intestinal lining, including proper permeability, microbiome, and immune cell activity\*

## BENEFITS

- ✓ Formulated to support intestinal integrity, balanced microbiome, proper inflammatory response, and healthy digestive function overall\*
- ✓ In published studies, 2 grams of IgY Max daily led to a 95% decline in a key protein that increases intestinal permeability\*
- ✓ Immunoactive probiotic strains help support proper cytokine balance\*
- ✓ Inulin and IMO help nourish beneficial gut microbiota, promoting robust colonization\*
- ✓ Glutamine is the preferred food source for enterocytes, helping support overall gut tissue integrity\*

## THE STORY BEHIND MICROBIOME BREAKTHROUGH

Matt & Wade created Microbiome Breakthrough to be the most powerful healthy biofilm builder ever. Almost every probiotic on the market is transient, meaning it passes through the intestinal tract and does not colonize and build a healthy biofilm which helps seal the gut.

At the BIOptimizers lab, over 500 probiotic tests have been completed in the last 3 years and Microbiome Breakthrough is by far the best biofilm builder of any product we've ever tested. This formula is truly a breakthrough for microbiome health.
