

BERBERINE BREAKTHROUGH

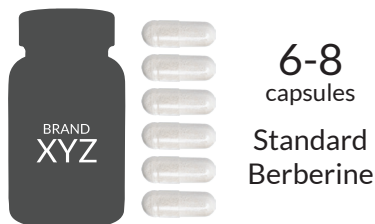

Our Berberine Breakthrough contains GlucoVantage®, the first commercially available brand of Dihydroberberine, an active metabolite of berberine. Berberine has been shown to support healthy blood sugar levels already within normal range and body composition.* Dihydroberberine helps overcome limitations of standard berberine, such as low bioavailability and GI distress.*

FEATURES

- ✓ Contains four (4) ingredients supported by clinical studies and research - GlucoVantage®, Cinnulin PF®, CyanthOX®, and InnoSlim®
- ✓ High amounts of Biotin and Chromium to support healthy blood sugar already within normal limits*
- ✓ GlucoVantage® is 2x longer lasting than standard berberine (8 hours vs 4 hours)*
- ✓ Fewer pills needed to achieve effects similar to standard berberine*

6 capsules versus 2 capsules daily
That's the GlucoVantage®!

THE STORY BEHIND BERBERINE BREAKTHROUGH

Berberine Breakthrough was created to help solve a dire personal situation for Matt Gallant, our co-founder. His mother-in-law had both feet amputated due to blood sugar issues. One night, they had to call the ambulance because her blood sugar hit 600. Matt was determined to create a “best-in-class” blood sugar product. We built a multi-angle blood sugar support formula that has transformed Matt’s mother-in-law’s health.

Berberine Breakthrough is a “fan favorite” of many of our healthcare practitioner customers, because of its effectiveness and level of supporting clinical research. We are confident that once you give it a try, it will become one of your favorites as well.
